

KIWI SEED OIL

Suitable for beauty and personal care applications.

INCI: Actinidia Chinensis (Kiwi) Seed Oil

Extraction: Cold Pressed

Shelf Life: 1 Year

Origin: USA

Background:

The kiwi is native to China. It is also cultivated in New Zealand, Chili, the United States, Italy, and to a smaller extent, other regions of the world. The kiwi gained worldwide popularity when New Zealand began exporting the fruit approximately 50 years ago. The fruit was named after the kiwi, a bird native to New Zealand. To avoid confusion with the bird that also bears the same name, the fruit is sometimes referred to as the kiwi fruit, especially in New Zealand and Australia.

Reminiscent in shape to that of an egg, the kiwi fruit has a thin fibrous, brown skin that encases the edible green fruit and hundreds of tiny, black seeds that resemble poppy seeds.
