

Ethically Sourced Ingredients

VITAMIN E MIXED TOCOPHEROL 50%, NON-GMO SOY

Also Known As Vitamin E T-50

Suitable for beauty and personal care applications.

INCI: Tocopherol

Extraction: Esterification and Distillation of Deodorised Distillate of Soybean Oil

Shelf Life: 3 Years

Origin: India

Background:

Praan Naturals Vitamin E Mixed Tocopherol 50% is a natural, heat stable anti-oxidant extracted from Non-GMO soybean oil. It is standardized by blending the oil with additional Non-GMO soybean oil to achieve a minimum tocopherol concentration of 50%.

Tocopherols act as powerful antioxidants that can help protect the body and also protect fragile oils and lipids from oxidation.

Praan Naturals Vitamin E Mixed Tocopherol 50% possesses a higher concentration of beta, gamma and delta tocopherol than does traditional Vitamin E Oil. Vitamin E Oil typically contains higher levels of alpha tocopherol. Synthetically formulated vitamin E does not have the bioactivity that our Vitamin E Mixed Tocopherol 50% offers.

Although Vitamin E Mixed Tocopherol 50% is not an organic ingredient, it is permitted for use in "made with organic material" products. Our Vitamin E Mixed Tocopherol 50% is certified to be completely free of genetically modified soybeans (NON-GMO).

Recommended Usage Rate: 1-100%

Standard Packaging: Available in Carboys.

Uses:

Vitamin E Mixed Tocopherol 50% is suitable as a natural anti-oxidant or active ingredient in any natural formulation that contains fragile oils and lipids. Oxidation occurs when oils, lipids and other natural ingredients are exposed to oxygen. Vitamin E Mixed Tocopherol 50% is an anti-oxidant that reduces the rate of oxidation and helps to prolong the shelf life of natural products. Formulations should be challenge tested by a qualified laboratory to ensure products are adequately protected.

Vitamin E Mixed Tocopherol 50% is Perfectly Suited for the Following Personal Care Applications:

- Skin Care
- Lip Care
- Hair Care
- Cosmetics
- Aromatherapy

Properties:

- Non-GMO
- Minimum Tocopherol Content: 50.0%
- Minimum Beta, Gamma and Delta Tocopherols: 80.0%
- Light Yellow to Red Brown Hue
- Medium Viscosity
