

### YELLOW FILTERED BEESWAX PELLETS

White Filtered Beeswax Pellets and Organic Beeswax Pellets are also available.

*Suitable for beauty and personal care applications.*

**INCI:** Cera Alba (Beeswax)

**Shelf Life:** Stable

**Origin:** China

#### Background:

Beeswax is a natural secretion of honey bees that feed on living botanicals.

Praan Naturals Yellow Filtered Beeswax Pellets possesses the beautiful, sweet aroma of honey. Our present lot is a pale creamy yellow hue. As a natural product, however, the exact color may change between lots from pale yellow to a medium brown.

Praan Naturals Yellow Filtered Beeswax Pellets is a premium quality, pure beeswax that is filtered to remove any impurities and is then pastillated into pearls for ease of use.

#### Uses:

Praan Naturals Yellow Filtered Beeswax Pellets can be used in creams, lotions, balms, body butters and other formulations where a smooth or creamy consistency is desired. Beeswax can lend emollient, softening properties to the finished product while acting as a humectant and thickening agent. It can also help stabilize emulsions and provide rigidity to stick formulations. Balms made with beeswax benefit from smooth application and a lustrous appearance.

**Yellow Filtered Beeswax Pellets are Perfectly Suited for the Following Personal Care Applications:**

- Skin Care
- Lip Care
- Hair Care
- Cosmetics
